The Data Science Foundation is partnering with the AI & Big Data Expo World Series. We are pleased to offer a 30% discount to members of the foundation to the event at Olympia 25-26 April 2019. An email with the discount code will be sent to you.

The **AI & Big Data Expo Global**, the leading Artificial Intelligence & Big Data Conference & Exhibition event will take place on **25-26 April** at the Olympia London. It is a **showcase of next generation technologies and strategies** from the world of Artificial Intelligence & Big Data, an opportunity to explore and discover the practical and successful **implementation of AI & Big Data in driving forward your business in 2019 and beyond**.

**4 co-located events. 21 conference tracks. 12,000+ attendees. 500+ speakers. 300+ exhibitors.**

Our high-level conferences will bring together **forward thinking brands, market leaders, AI & Big Data evangelists and hot start-ups** to explore and debate the advancements in Artificial Intelligence & Big Data, the impacts within **Enterprise & Consumer** sectors as well as **Development platforms** and **Digital Transformation** opportunities. Topics covered include **Business Intelligence, Deep Learning, Machine Learning, AI Algorithms, Data & Analytics, Virtual Assistants & Chatbots** as well as case study based presentations proving an insight into the deployment of AI across different verticals.

The AI & Big Data Expo will bring together over **4,000 visitors** over the two days including **IT decision makers**, developers & designers, heads of innovation, chief data officers, chief data scientists, brand managers, data analysts, start-ups and innovators, tech providers, c-level executives and venture capitalists.

The 6 dedicated AI & Big Data Conference tracks include; **Enterprise AI & Digital Transformation, Data Analytics for AI & IoT, Big Data Strategies, AI and the Consumer, Developing AI Technologies and Big Data for Industry**.

The AI & Big Data Expo will be co-hosted alongside the [IoT Tech Expo](#), the largest global gathering for the Internet of Things sector, the [Blockchain Expo](#) and the [Cyber Security & Cloud Expo](#). As a whole, the event will attract in excess of **12,000 attendees** for two days of insightful content covering the whole ecosystem surrounding AI, Big Data, IoT, Blockchain, Cyber Security & Cloud.

## About the Data Science Foundation

The Data Science Foundation is a professional body representing the interests of the Data Science Industry. Its membership consists of suppliers who offer a range of big data analytical and technical services and companies and individuals with an interest in the commercial advantages that can be gained from big data. The organisation aims to raise the profile of this developing industry, to educate people about the benefits of knowledge based decision making and to encourage firms to start using big data techniques.
